

Dianne Anderson

Experience Background

Dianne helps individuals and organizations achieve learning, change, and growth. Dianne has developed and managed successful executive coaching and assessment programs for senior leaders and executives at Hewlett-Packard and Agilent Technologies. At Agilent, she managed the roll out of a global culture change initiative to over 1800 managers worldwide in a 15-month period.

As an Executive Development Specialist for Agilent Technologies, Inc. she was responsible for talent management, succession planning and the development of the top 200 executives in the Corporation. Dianne's role in developing the next generation of Senior Business Leaders was recognized as pivotal in the formation and growth of the new company.

Her career includes leadership positions and operational experience in worldwide marketing for Hewlett-Packard, as well as positions in R&D. Dianne's 26 years of operating experiences have prepared her to develop the skills, knowledge and abilities of senior management so they can more effectively compete in the global marketplace. Over her career she has managed complex organizations with multi-million dollar budgets. She has experience in line and staff positions at the business unit and corporate levels, and built marketing and sales capabilities in Fortune 500 companies.

Education/Professional Affiliations

Dianne has been a member of the EDA Strategic Executive Development Network, Boston University's Executive Development Roundtable, the Human Resource Planning Society, Heartland Institute's Thought Leader Gatherings, and the American Society of Training and Development.

Dianne has also dedicated herself to helping people in the community with active involvement in the Santa Clara County Holiday Project, the Girl Scouts, and local community politics.

Dianne has a BS degree in computer engineering, graduating Summa Cum Laude. She is married with three children, assorted pets and is an avid reader and photographer. She also enjoys jogging, strength training and gourmet cooking.
